NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
THREE MONTHS ENDED MARCH 31, 2021 and 2020
(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Riley Gold Corp. (the "Company" or "Riley") was incorporated under the Business Corporations Act (British Columbia) on June 3, 2011. On September 29, 2020, the Company changed its name from Riley Resources Corp. to Riley Gold Corp. The Company's office is located at Suite 2390 - 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9. The Company's common shares on the TSX Venture Exchange ("TSXV", or the "Exchange") under the trading symbol RLYG and on the OTCQB Venture Market under the symbol RLYGF.

The Company is a precious metals exploration company engaged in the acquisition and exploration of mineral properties located in the state of Nevada, USA. To date, no mineral development projects have been completed and no commercial development or production has commenced. Based on the information available to date, the Company has not yet determined whether its mineral property contains economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development programs and ultimately upon future profitable production.

These consolidated financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") appropriate for a going concern. The going concern basis of accounting assumes the Company will continue to realize the value of its assets and discharge its liabilities and other obligations in the ordinary course of business. Should the Company be required to realize the value of its assets in other than the ordinary course of business, the net realizable value of its assets may be materially less than the amounts shown in the consolidated financial statements. These consolidated financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that may be necessary should the Company be unable to repay its liabilities and meet its other obligations in the ordinary course of business or continue operations.

On March 11, 2020, the World Health Organization characterized the outbreak of a disease caused by a strain of the novel coronavirus ("COVID-19") as a pandemic which has resulted in a series of public health and emergency measures that have been put in place to combat the spread of the virus. The duration and impact of COVID-19 is unknown at this time and it is not possible to reliably estimate the impact that the length and severity of these developments will have on the financial results and condition of the Company in future periods.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of Compliance

The Company's condensed interim consolidated financial statements have been prepared in accordance with IFRS applicable to the preparation of interim statements, including IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements should be read in conjunction with the Company's annual financial statements for the year ended December 31, 2020 which have been prepared according to IFRS as issued by the IASB.

The Audit Committee of the Board of Directors authorized for publication the unaudited condensed interim consolidated financial statements on May 21, 2021.

(b) Basis of Presentation

(i) Basis of Measurement

The condensed interim consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments, which are measured at fair value, as explained in the accounting policies set out in Note 6. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

2. NATURE OF OPERATIONS AND GOING CONCERN (Cont'd)

(b) Basis of Presentation (Cont'd)

ii) Basis of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary: RRC Exploration Inc. The financial statements of the Company's subsidiary have been consolidated from the date that control commenced. All inter-company balances and transactions, and income and expenses have been eliminated upon consolidation.

The condensed interim consolidated financial statements include the financial statements of the Company and its subsidiary listed in the following table:

Name of Subsidiary	Country of Incorporation	Functional Currency	Ownership Interest	Principal Activity
RRC Exploration Inc.	USA	US dollar	100%	Exploration company

iii) Functional and Presentation Currency

These condensed interim consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency. The functional currency of the Company's wholly-owned subsidiary RRC Exploration Inc. is the US dollar.

Foreign currency transactions are initially recorded in the functional currency at the transaction date exchange rate. At closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the closing date exchange rate, and non-monetary assets and liabilities, at the historical rates. Exchange differences arising on the settlement of monetary items or on translating monetary items at different rates from those at which they are translated on initial recognition during the period or in previous consolidated financial statements are recognized in profit or loss.

For the purpose of presenting consolidated financial statements, the assets and liabilities of RRC Exploration Inc. are expressed in Canadian dollars using the exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during the period, in which case exchange rates at the dates of the transactions are used. Exchange differences are recognized in other comprehensive income and reported as a currency translation adjustment in equity.

Financial instruments consist of cash, receivables and accounts payable and accrued liabilities:

a) Fair value

The carrying value of cash and accounts payable and accrued liabilities approximate their fair value due to the short-term nature of these instruments.

b) Credit risk

Credit risk is the risk of an unexpected loss if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash and taxes receivable. Management believes that the credit risk concentration with respect to financial instruments included in cash and taxes receivable is remote.
